Which specific topics are you most interested in learning?

Please acknowledge the items below, and send the signed form to inquiries@structures.aero

- Temporary licenses and training files will be provided.*
- If you do not already have the latest version of Femap installed on your computer, please ensure you have admin rights on the machine to install software. We will provide the installer and license to use for the duration of the class. Additionally, the installer can be provided prior to the class for installation upon request.*
- All training classes are tentative until we register a minimum number of attendees. An SDA representative will e-mail all attendees when the class is confirmed.*
